GLOBAL CALAMITY DIAGNOSTIC & ANALYTICS REP

EXECUTIVE AUDIT
14 INCIDENTS

Scope: 30-Day Longitudinal Trends, 7-Day SMA Projection & Critical Healthcare Triage Analysis

Report ID: ANL-202610-7211 • Generated: 2026-10-10 08:26:24 UTC • Data Mode: Unified (Live + Baseline)

1. EXECUTIVE HAZARD & HUMANITARIAN KPI DASHBOARD

TOTAL MONITORED
14
14 Live (1 USGS, 0 NASA)

CRITICAL THREATS
7 Active
Immediate Response Required

MEDICAL EMERGENCIES
14 Cities
9 Critical Hospital Overwhelmed

DANGER ZONE POPULATION
8.37M
Estimated 610 Casualties

2. SEVERITY PROFILE & HEALTHCARE TRIAGE DIAGNOSTICS

Incident Severity Breakdown:

- **CRITICAL SEVERITY** — 7 (50%)
  Immediate catastrophic hazard
- **HIGH SEVERITY** — 7 (50%)
  Severe localized disruption
- **MODERATE SEVERITY** — 0 (0%)
  Contained hazard perimeter
- **ADVISORY MONITOR** — 0 (0%)
  Preventative monitoring state

Healthcare & Hospital Surge Pressure:

- Overwhelmed Trauma Facilities: 9 cities
- High Patient Influx Pressure: 4 cities
- Total Medical Emergency Alerts: 14 events

Priority Medical Consumables in Highest Demand:

1. Universal O- Negative Whole Blood Units & Plasma Expanders
2. Mobile Thoracic Surgery Trauma Kits & Surgical Hydrogels
3. Portable Ventilators, Dialysis Consumables & N95 Masks

3. MULTI-HAZARD CATEGORY DISTRIBUTION & INCIDENT PROPORTIONS

HAZARD CATEGORY	SCIENTIFIC MEASUREMENT SCALE	INCIDENTS	SHARE %	RISK STATUS
[VO] Volcanic Eruptions	VEI	1	7.1%	CRITICAL
[TS] Tsunamis	Iida-Imamura Scale / Run-up Wave Heigh	1	7.1%	CRITICAL
[EA] Earthquakes	Moment Magnitude	1	7.1%	CRITICAL
[WI] Wildfires	FRP	1	7.1%	ACTIVE
[VI] Viruses & Pathogens	Basic Reproduction R0 & Case Fatality	1	7.1%	ACTIVE
[LA] Landslides & Mudslides	Cruden & Varnes Velocity Class	1	7.1%	ACTIVE
[AV] Avalanches	European Avalanche Hazard Scale	1	7.1%	ACTIVE
[CY] Tropical Cyclones	Saffir-Simpson Hurricane Scale	1	7.1%	CRITICAL
[TO] Tornadoes	Enhanced Fujita Scale	1	7.1%	CRITICAL
[FL] Floods & Flash Floods	Hydrograph Peak Discharge	1	7.1%	CRITICAL
[DR] Droughts	Palmer Drought Severity Index	1	7.1%	ACTIVE
[BL] Blizzards & Ice Storms	NESIS	1	7.1%	ACTIVE
[EX] Heat Waves & Cold Waves	WBGT	1	7.1%	CRITICAL
[PA] Pandemic Mapping	WHO Epidemiological Phase	1	7.1%	ACTIVE

4. 30-DAY FREQUENCY TREND ANALYSIS & 7-DAY MOVING AVERAGE FORECAST

30-DAY HISTORICAL CADENCE

Total Recorded: 0 incidents

Mean Daily Rate: N/A / day

Peak Date: N/A

Peak Activity: 0 incidents/day

7-DAY MOVING AVERAGE PROJECTION

Forecast Total (7d): ~0 incidents

Projected Daily Rate: ~N/A / day

Smoothing Window: 7-day Simple MA

Trend: STABLE TREND

YEAR-OVER-YEAR (YoY) VARIANCE

Comparison Period: Oct 2025 vs 2026

Annual Seismic Shift: +14.2% YoY

Atmospheric Volatility: High Surge

Civil Defense Preparedness: Stage 3

5. HIGH-PRIORITY CRITICAL DISASTER DOSSIER (ACTIVE HOTSPOTS)

1. Mount Marapi Explosive Ash Plume

CRITICAL

Location: Bukittinggi, West Sumatra, Indonesia (-0.381°N, 100.474°E) • Intensity: VEI 3

Occurrence Time: Oct 08, 2026 at 12:32:00 PM (WIB (West Indonesia Time)) • Zulu UTC: 05:32:00

Demographic Danger Zone: 65,000 citizens • Casualties: 14 • Evacuation Radius: 5 km

Action: Evacuate within 4.5 km of summit. Wear wet masks or sealed respirators. Close all doors and windows....

2. South Pacific Seismic Tsunami Watch

CRITICAL

Location: Nuku»alofa, Tongatapu, Tonga (-21.139°N, -175.202°E) • Intensity: 2.85 m

Occurrence Time: Oct 08, 2026 at 05:45:00 PM (TOT (Tonga Time)) • Zulu UTC: 04:45:00

Demographic Danger Zone: 24,000 citizens • Casualties: 2 • Evacuation Radius: 3.5 km

Action: Abandon low coastal areas instantly on foot. Do not wait to see the wave. Avoid ports and rivers....

3. East Anatolian Fault Seismic Slip

CRITICAL

Location: Kahramanmara_, Turkey (37.586°N, 36.937°E) • Intensity: 7.4 Mw

Occurrence Time: Oct 08, 2026 at 07:17:34 AM (TRT (Turkey Time)) • Zulu UTC: 04:17:34

Demographic Danger Zone: 420,000 citizens • Casualties: 120 • Evacuation Radius: 12 km

Action: Assemble in open parks. Beware strong aftershocks exceeding Mw 6.0. Turn off residential gas lines....

6. STRATEGIC CIVIL DEFENSE LOGISTICS & DIRECTIVES

Operational Directives for Deployed Disaster Response Teams:

1. Rapid Medical Evacuation: Establish forward casualty triage centers at least 15km clear of the active epicenter.
2. Critical Consumables Pipeline: Prioritize aerial drops of blood plasma, potable water filtration, and surgical kits.
3. Inter-Agency Communications: Maintain radio telemetry synchronization via VHF channels 145-175 MHz.
4. Civil Protection Corridor: Enforce dedicated humanitarian safe passage lanes for uninhibited ambulance mobility.
